

IDD Demeter Specifications

Specification of Machine

Product Name	IDD Demeter
Size	420(width)x450(height)x 180(Deep) millimeter
Weight	6.4 KG
Material	ABS
Power Consumption	120W
Power supply	220V (50~60Hz)
In/out port size	20 ϕ / (15 ϕ)
Permitted pressure	0.05 ~ 1.0Mpa
Nano-Silver Ion Active Water Generating Capacity per day	100ton / day (1~90L/min)
Silver Concentration	Adjusted on the controller panel

Specification of Exclusive Cartridge

Size	420 x 110 x 82
Weight	2.9 KG
Replacing time for cartridge	Depends on ppm / Concentration of use
Using 0.25 ppm	Replace after use of 2.720 tons Water
Using 0.5 ppm	Replace after use of 1.360 tons Water
Using 1.0 ppm	Replace after use of 680 tons Water
Using 2.0 ppm	Replace after use of 340 tons Water
